

The lockdown period from mid-March to mid-May was unique for all companies.

TOPSOLID proved to be particularly resilient in terms of business activity, adapting in a very reactive manner through the use of remote communication tools.

Even in its external growth project, TOPSOLID has maintained its dynamism by successfully integrating three companies in our family.

CUSTOMER SUCCESS

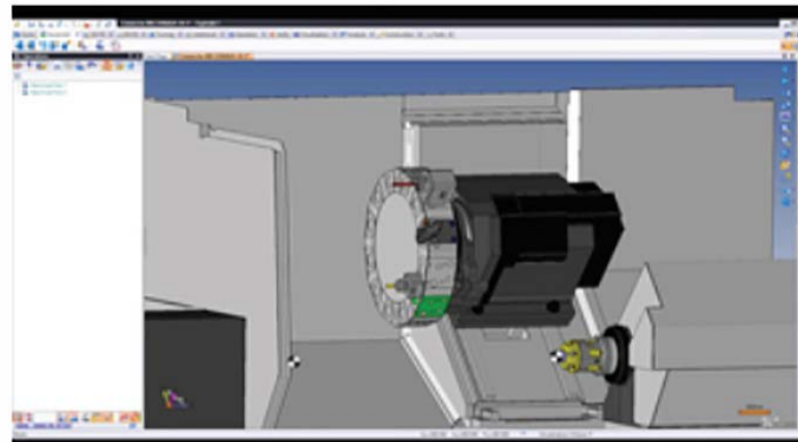

TopSolid'Design models the Potez 25. In love with Aéropostale and its legendary airplane, Michel Flora joined forces with Alain Jupille, an expert in TOPSOLID SAS software, to redesign and rebuild it. A story filled with obstacles, as fascinating as it is difficult.
